**What kind of
coma were the
students in?**

**Name 2 agents. Give their
full names.**

**Find someone who is
committed to eating salad
today.**

**Find someone who
loves salad.**

Directions for playing ANTIDOTE

Your Mission:

1. Print out an antidote card for each agent (students).
2. Hand out an antidote card for each agent.
3. The agents walk around the room, talk to each other, and find people who know the answers to each box. The person they find must write the answer down and sign their name in the box.
4. To get the "ANTIDOTE" the agent must have a filled diagonal or horizontal row, no vertical columns (they need to spell out antidote on their card). Only different people can sign your sheet, no repeating names. You cannot sign your own sheet.
5. Tomatoes and oranges are not vegetables. They are fruit.
6. After agents receive an "ANTIDOTE", play until "BLACKOUT", which is when their whole card is filled.
